The basic features of the assessment of the school district shall be as follows:

1. The form for self-assessment of each area of responsibility shall be designed to indicate strengths and weaknesses;
2. All resources, including personnel, shall be used in the process;
3. Each evaluation shall be reported to the Board for its approval; and
4. Board-approved reports shall become goals and objectives for each department for the forthcoming year.

At least once each year, the Board shall assess the productivity within each area of responsibility and establish standards for each area.
