

LAWRENCE COUNTY SCHOOL-BASED THERAPY SERVICES

This program was created to allow youth access to school-based therapy services in the Lawrence County School System.

We have five school-based therapists that cover 2-3 schools each.

How can I refer someone to this service?

- Go to www.lcss.us and click on Resources; Click on LCSS School-Based Therapy.
- Scroll down the webpage to the student's school and click on that tab.
- Complete the Google Form that will be sent to the school counselor/school-based therapist.
- The School Counselor will touch base to assess if this service is the right path for the student.

There is no cost for this service. This is a service provided by the Lawrence County School System.
